A BRIEF RESPITE FOR THE TAGLESS CANINE

The Dogcatcher to Take a Short Rest. .

Recess to Allow the Owners of Animals to Procure Licenses.

Work of the Poundmaster Thus Far This Season-Usual Number of Victims.

The poor, downtrodden canine is about to have a rest from his exertions in clud-When the 1st of the month arrives the more freely in consequence. The tax on dogs for the present year runs out on July 1, and then all dog owners will be allowed about one month to comply with the terms of the law and furnish their pets having in charge the enforcement of the law are very indulgent to the public. They perfect as any sold in the city at 180 allow them one month or longer to secure the tags. Then if the dogs are not furnished with them the delinquent animals are taken up and placed in the pound.

The dog atchers have been very busy during the past few months. Just before poor dog whose owner has not thought enough of him to provide for him a tag or who has lost his metallic passport in a fight with some larger dog, or who has fallen prey to the thieves that infest the highways and byways of a great city and who deal particularly with dog tags. There who deal particularly with dog tags. There is hardiy a person in this city who could teil why anyone should steal a flog tag at this time of the year, but the tags are stolen every day in large quantities. It is a hardship to be compelled to buy a new '58 tag when the '39 issue is almost ready for distribution, but then there are only two kinds of dogs, so far as dog catchers are concerned—those with tags and those without. The former are treated with respect and the latter are simply picked up by their high less and tossed into a large. spect and the latter are simply picked up by their hind legs and tossed into a large covered wagon, to be taken to the pound and probably converted into fertilizer and Miss Berger W. West Berger W. West Berger and State of the latter of the first presentation, Mr. Glift Miss Berger W. West Berg W. West

soop.

The pound is a very nice place for some degs; they seem to like it and there are some who are regular visitors. Their ownesting who are regular visitors. Their owners ball them out several times a year and
provide them with new tags. The buildings
are large and commodious for the number
of dogs that are brought there and the
feeding is good. Of course, a dog that gets
itself impounded is in danger of execution,
but even that would be a blessing in some
cases. There are now about fifty dogs in
the pound and they are of all sorts and
conditions. There are black and tans,
ostimated Percaie Negliges Shirts, with one pair detached light colles to match; all desirable colors in large and small plaids, stripes and fancy designs—such as you see sold here and verywhere at \$1.00 cach—this price will surely clear them out in an hour—very near 25C every size.

All our still bosoms shirts, which have been taken from our regular lines and placed on two large hargain tables, complies very near every size—the makes are such as Frantier, Fitwell, Charapton, Eureka, and Jan. Foxler, and many others equally as well known—some are open front and bank; some have set-in bosoms; only the heat materials are used in each shirt. We can't afford to carry there broken lines, but you can very well afford to buy values, which lines of 25 mal 50 cent Underwear. plain balbriggan, in tan blue brown, hellotrope and natural; also white and blue striped; also whit

the samplest and best made for composite the sumplest and best made for composite for the Perfection Brand).

A Clearance in Stift Bep? I take an an accordance of the sum of th of the dog's owner and the number of the dog's owner and the number tag, is turned over to the purchaser. Each tag costs \$2. The District rues no crediction sales of last year's tags. Bargain days in dog tags have not yet been tried. It is not believed that any more of them estid be disposed of if they sold for \$1.89 fan at the present price, and the Government as not going to try it.

North Capitor constituted cost of sales, and the sales of last year's be constituted in Outstie Avenue, Karsas Avenue, Admis Mill Read, and Lamber Avenue, Lauter Heights, and an intercepting sewer in the Zoolegical Park, at an estimated cost of soles.

That the present price and the Government is not going to try it.

That the following work be done, under the permit system:

The resignation of Dr. J. Ryan Derverence as thysician to the noer has been accepted. The time for the delivery of the first installment of fire hydrants under the contract with indices II. Haig has been extended thirty days.

A third-class steam engineer's ilcense has been ranted to John Nash.

A permit has been issued to the Philadelphia, viimington and Baltimore Railroad Company for semisoion to renew ten poles on Sixth Street, etween B Street northwest, and to change the resent wires to the new poles.

The Commissioners have informed Luchs & too, of No. 519 Seventh Streets northwest, with created to a complaint of the grade in the alley as the rear of their premises, that official investigation shows that the conditions complained it are the result of the slope of the payment in the back yard of the property, which causes he water to drain toward the building.

John M. Keoch, of No. 322 H Street northwest, as been informed that the Commissioners canot grunt his request that trees he frimmed in most of his house, as the trees are in good continuous many contracts.

MARYLAND NEWS NOTES.

Michael H. Welsh, the circus man, states that has about completed arrangements to take a curs to the Klendike.

The engagement of Miss Laura Cromwell, daughter of Dr. Cromwell, of Eckhart, Allegany county, to S. Johnson Pee, son of former Attorney General John P. Poe, of Baltimore, is announced. A man threw a lighted match into an empt whisky barrel in Cumberland recently, causing a violent explosion. The head of the barrel shot straight up at least 100 feet, and was badly

WATERWORKS PLANT FOR TAKOMA PARK ‡

Citizens Considering an Important Project.

Plans for the Contemplated Municipal Improvements.

Public Meeting Called, and to B Followed by a Special Election.

A meeting of the Takoma Park Citizens' Association, which all the citizens and property owners of the village have been invited to attend to consider the advisability of providing for the construction of a waterworks plant and a system of sewerage, will be held next Monday night at the Takoma town hall. At the meeting the plans for the contemplated improvements which have been prepared by a spe cially appointed committee of the municipal council will be presented and explained to the people. No definite action will be taken next Monday night other than the probable adoption of a resolution expressing the sentiment of the citizens in regard to the matter, the question remaining to be definitely decided at a special election to be held July 3.

The project of establishing a system of sewerage and waterworks has been considered by Takoma citizens before. In May, 1898, a special election was held at which the matter was voted upon, but, owing to the lack of the necessary two-thirds vote, the project was defeated. A large majority voted in favor, however, and it is thought that there will be no difficulty n securing the desired number of voter After the defeat last year the question was allowed to rest until this spring, when

Decided improvement is noted in the production of "Aristocracy" at the Columbia, and the performance now compares 5, and on its recommendation the council voted to hold the special election already referred to. During the past two weeks the matter has been widely discussed, and, from present indications, there will be no from present indications, there will be no difficulty in securing the approval of two-thirds of the citizens. The need for a sys-tem of sewerage and waterworks in Ta-koma has been apparent for some time past. Although the sanitary conditions of the town are good the soil is of such a character that with a continuance for any length of time of the present means of sewerage and water supply the wells from

Commissioners yesterday:

That sewer be constructed under the permit system in the west side of Sixth Street, and actimated cost of \$220.

That sewer be constructed at the intersection of Georgia and Rentacky, found, Chargeable to the current appropriation for main and pipe sewers.

That sewer be constructed at the intersection of Georgia and Rentacky, Avenues, at an estimated cost of \$210, Chargeable to the current appropriation for main and pipe sewers.

That sewer be constructed at the intersection of Georgia and Rentacky, Avenues, at an estimated cost of \$150, Chargeable to the current appropriation for main and pipe sewers.

That sewer be constructed at the intersection of the current appropriation for main and pipe sewers.

That sever be constructed at the intersection of the current along the east side of North Capitol Street, and along the east side of North Capitol Street, and the bid which is being most carefully should be stated the appropriation for repairs to road, 1900.

That current be set and evenion indexact be laid on the north side of the cast approach to Reidge.

That can be sent and evenion indexact be laid on the appropriation for constructed in the marth side of the cast approach to Reidge.

That can be sent and evenion indexact be laid on the north side of the cast approach to Reidge.

The water is pure and the quantity would be sufficient during the entire year. It is pair of bridges, 1800.

That can be sent and evenion indexact be laid on the marth pair of bridges, 1800.

That can be sent and evenion indexact be laid on the marth side of the cast approach to Reidge.

The water is pure and the quantity would be sufficient during the entire year. It is sent to capacity of from \$50,800 to 1,000,000 gains and the appropriation for constructed in the marth side of the cast approach to Reidge.

The water is pure and the quantity would be sufficient during the entire year. It is a self-mated to set of \$100, chargeable to the sufficient during the entire year.

The precion of the Census, it wa ed at the rate of about 8.800 gallons an hour by means of a large force pump, opterated by a gasoline engine, to a siand-pipe 120 feet in height, to be located on high ground in North Takoma. It is thought that a sufficient pressure could be obtained by this means. The water mains are to be buried four feet under the ground and forty hydranis will be provided for. The sewer mains will lead to all parts. Harrison Dingman, who will be appointed supervisor for the District of Columbia. under the permit system, at an estimated cost of \$114.

That the readway pavement of Sixth Street hornbowest, from Lordman Avenue to Missouri Avenue, he resurfaced, at an estimated cost of \$1,509, chargeable to the appropriation for repairs to streets, 1809, as far is the balance of said appropriation will permit and the excess, chargeable to the appropriation for repairs to streets, 1809.

That water main he constructed in Sevential streets and a sufficient pressure could be filled by the President, with and by the consent of the Senate. This fact has been correlated by the provided for. The sewer mains will be provided for. The sewer mains will lead to all parts of the park and be connected with large caspools, located at some distance from the village. The cesspools will be lined by the President, with and by the consent of the Senate. This fact has been correlated by the President, with and by the consent of the Senate. This fact has been correlated by the President, with and by the consent of the Senate. This fact has been correlated by the President, with and by the consent of the Senate. Strasburg's German Enthusiasm.

(From the London Chronicle.) The seemingly enthusiastic reception given t the German Emperor and Empress at Straslong yesterday, when "the city was profusely
decorated with flars, and much animation pervailed in the streets," will no doubt cause much
sorrowful reflection in France. When the old
Emperor in 1850 reached the capital of Alsaes
to review the troops there, he found most of the
bonse hinds down, and the streets all but debonse hinds down, and the streets all but deserted. That was just twenty years ago. But
what a change has come over the inhabitants of
the Reichsland since then, even if we make all
due allowance for official flags and animation
which may be now in order! And an imperial
